Size

Of Timely Interest to Automobilists

Our big Tire Sale is meeting the demands of automobile owners who want to save money and at the same time get the biggest values in mileage.

Our Tire Sale is proving a KracKajacK success. By this, we mean that we are accomplishing our purpose. I hat is, closing out our present stock of Hardman tires.

But the real success for us lies in the fact that we are giving customers the best

value in tires they can possibly buy on the market today. When you take into consideration that tires recently advanced, and that they are bound to advance again at an early date, you should not fail to buy these tires now. When they are gone, there will be no more at anything like as low a price. Already many of the sizes have been closed out completely, and next week should see the end of this sale. If you want to economize on tires,

Save 30 to 40 per Cent Here Are the Facts:
